OZ MILLING CHUCK

FEATURES :
 1.Concentric end mill extending 25mm with concentricity at 0.02mm
 2.Spring collet with two ends cutting fine flute, not easy to made cutter loosen.
 3.Interior devided with upper contracting to keep cut-ter never be contracted.
 4.Enclosed one Spanner and Plastic case or wooden case for every set.
 5.The body Screw is Ground.
 6.Push inward the steel ball inside of screw nut and firmly strong valid vibration - absorbent power.

1.Complete sets use OZ collet.
 2.Used plastic box, if indicate wooden box that the price difference.
 3.Please indicate the collet chuck measurements in imperial or metric system.
 4.Please specify the draw bar's size when making an order.
 5.NT50 packing by wooden box.
